

The graph displays the relationship between Nedpressingskraft i kN (Y-axis) and Kote, m (X-axis). The Y-axis ranges from 120 to 135 kN, and the X-axis ranges from 0 to 30 m. The curve shows a highly oscillatory relationship, starting at approximately 120 kN at 0 m, rising to about 125 kN at 5 m, and then fluctuating between 125 kN and 130 kN for the remainder of the distance.
